Save Lives Together!

Public Safety for All

Public Safety Announcements (PSAs) and Early Intervention Programs are critical to saving lives!

Children & middle/high schoolers must be informed about prevalence of deadly illicit fentanyl additives in counterfeit pills in NC!

Life saving Naloxone/Narcan should be in every school and public space...just like AEDs, Epipens, and fire extinguishers!

Fentanyl victim families should be speakers in NC Recovery & Drug Diversion Courts, in schools and at community events.

Naloxone in all NC Schools

Advocacy & Support Fentanyl Victim Families

20,758 NC residents lost their lives to illicit fentanyl 2013-June 2026 (NC OCME)

Those deaths create 100,000+ grieving NC residents who have no support system in place to process their pain.

Fentvic.org finds & embraces fentanyl victim families in all 100 counties.

Education & Prevention

Fentvic.org actively builds coalitions amongst victim families, elected officials, public health advocates, educators, law enforcement and prosecutors in all 100 NC counties.

- Victim Photo Memorials Online
- Family/Community Gatherings
- Court Support
- Fentanyl Victim Toolbox Online
- Naloxone Distribution

"People can ingest fentanyl without knowing, leading to accidental poisoning & even death" CDC 2023
