<b>NC STATEWIDE</b>	25931	14971	10960	58%	42%

. 2023 data January - March only.

^There is no individual code for fentanyl involvement on a death certificate; instead, the code T40.4 - an overdose involving an other synthetic narcotic is used as a proxy for fentanyl-involvement.

Fentanyl gets coded using the other synthetic narcotic code, but there may be other drugs included in this category; however, we know from toxicology data that the majority of deaths receiving this code involved fentanyl.
